

*ECOLINE*  
series

 **adler**  
professional dishwashers

*NOW even better!*

# All changed.

# This is new.

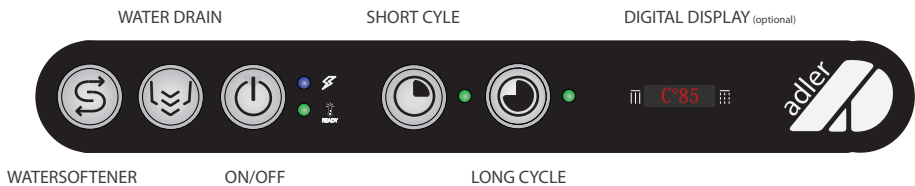

new design.

**interface**

with large dimension buttons and bright LED lights which facilitate interaction of the device and reduce use time of the machine.

simple.

efficient.

***wash tank***

efficient with round edges and only 17 liters capacity to reduce water and energy consumption. Designed to decrease dirt collection and bacteria proliferation inside of the machine and increase safety during daily cleaning and maintenance.

***stamped structure***

body, external housing and chassis of the machine made in robust stamped inox stainless steel to ensure long life reliability of the product.

rack slides

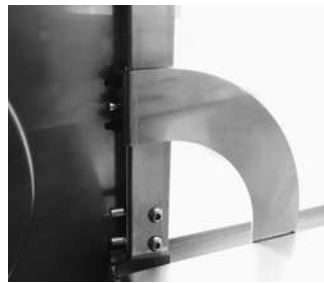

easy to remove.

***door hinges***

with inox stainless steel reinforced door to ensure safety and comfortable use secured by two pins.

easy access to service.

**easy access drawer**

for electrical components without pulling out the machine from installation and reduce service time.

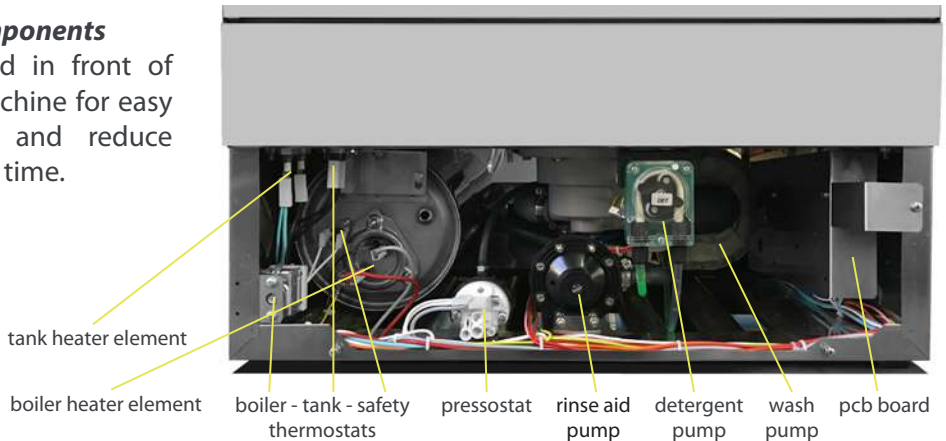

**electrical pcb board**

with latest technology fully protected from water and steam.

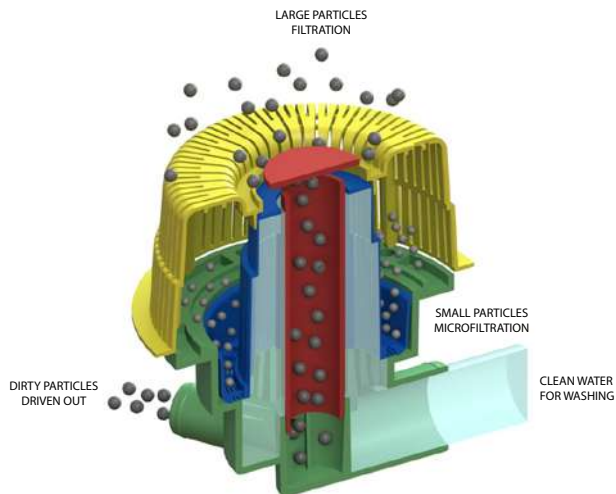

fully protected.

**all components**

installed in front of the machine for easy access and reduce service time.

dFilter  
innovative  
filtration  
system.

***filtration system***

with innovative technology has external surface protection for large dirt particles and internal microfiltration protection for small dirt particles to ensure clean washing water and preserve hydraulic components of the machine.

*NOW available!*

***surface scrap filters (optional)***

made in inox stainless steel material for extra protection on hydraulic components, extra collection of dirt and enhance clean washing water.

Only 1,5 liter of water and 0,13 kW of energy consumption per cycle.

Our machines have reached the lowest level of water waste on the market and up to 45% of saving compare to previous model.

2015  2,8 lt  
2018  water 1,5 lt

2015  0,25 kW  
2018  energy 0,13 kW

2015  4,2 gr  
2018  chemical 2,2 gr

only 0,05gr CO2

100 racks (1800 plates)  
before 8,27 euro  
now 4,33 euro

**Environment:** consume less water, energy and chemicals to preserve our world.

**Time:** faster than before to save time and increase your productivity.

**Costs:** less water, energy and chemicals means reducing all costs.

*WHY not save up to 45%?*

# faster

results.

20% filling water: before 2.48 now 2.15 min.

70% draining water: before 1.20 now 42 sec.

12% ready with hot water: before 22.10 now 19.30 min.

28% ready with cold water: before 43.20 now 31.10 min.

48% ready between cycles with cold water: before 4.50 now 2.30 min.

***inox stainless steel***

used on our machine is high quality robust scotch brite finish to facilitate cleaning and maintenance of everyday operations.

## STAINLESS STEEL

INOX STAINLESS STEEL SCOTCH-BRITE FINISH IS THE MATERIAL CHOSEN FOR ITS HIGH TECHNICAL QUALITIES AND HIGH MECHANICAL RESISTANCE, LOW THERMAL CONDUCTOR AND EASY TO CLEAN. IT IS IDEAL FOR KITCHENS AS IT IS NOT TOXIC AND HAS VERY LOW LEVEL OF POROSITY WHICH MEANS IT DOES NOT HOLD IMPURITIES.
